

CO-DESIGNING GREEN NEIGHBORHOOD ENVIRONMENTS AND OUTDOOR PLAYSCAPES WITH CHILDREN

Webinar: June 3rd at 3 pm (CET).

Children & Nature – Denmark (KU) and REGREEN (EU) welcome you to a webinar on green co-creation. Drawing on two recent Scandinavian projects, researchers will present examples of co-design with children and adolescents, showing how they involved children and youth in the design of natural play environments and neighborhood green spaces.

We welcome both practitioners and researchers working with or having interests in co-designing green play spaces with children. Following each presentation, there will be time for both questions and discussion, e.g., based on similar examples from other settings that the participants might bring up.

Sign up and get the link for the seminar her: <https://science.nemtilmeld.dk/810/>

Agenda:

- 3-3:15 Introduction to the seminar
- 3:15-3:45 **Co-designing playscapes that promote child-nature contact.** Linnea Hergren, Josefin Ågren and Åsa Sang, Department of Landscape Architecture, Planning and Management, Alnarp, and Fredrika Mårtensson, Department of People and Society, the Swedish University of Agricultural Sciences (SLU)
- 3:45-4:15 **Co-designing neighborhood spaces with children.** Bettina Lamm, , Anne Wagner and Laura Winge University of Copenhagen, Department of Geosciences and Natural Resource Management.
- 4:15-4:30 Bridging across the examples
